

8654 HINGE SECURITY SCREEN DOOR LOCK

Designed in Australia the 8654 Hinge Security Screen Door Lock is manufactured to stringent quality specifications.

The range has been tested in accordance with AS4145.2-2008, offering exceptional performance and reliability. Incorporating the advanced safety and security feature DualSelect® the 8654 is the ideal choice when securing your home.

FEATURES & BENEFITS

- DualSelect® provides flexibility between safety and security
- Durable stainless steel face plate
- No visible screws on the exterior for a clean appearance and additional security
- Self latching stainless steel hook bolt that deadlocks for improved security performance
- Optional 3 point kits available for additional security. When 3 point kit is fitted the snib activates/operates all 3 locking points
- Handles are available in a range of polyester powdercoat finishes to match surrounds
- Accepts Lockwood euro profile lazy cam cylinder with Kinetic Defence technology delivering bump and pick resistance

1 2 stage key locking, offers safety and security for all occupants with the options of Safety Mode or Secure Mode when exiting the home.

2 Turning the key to the first selection engages the safety lock, this offers security from the outside, while allowing occupants inside to safely exit using the internal lever and snib.

3 Turning the key to the second selection engages the secure lock, this provides internal and external security and requires the key to unlock the door from inside and outside.
